

Guidelines for Mounted Poster

*The First International Subtайн University Medical Education Conference ISUMEC
Karbala, Iraq | October 25-27, 2025*

1. Poster Format

- **Size:** The maximum size should be 107 cm x 77 cm. **Portrait orientation is mandatory.** Please note that due to the structure and size of the mounting boards, posters that are not in portrait format or that exceed the specified dimensions **cannot be displayed**. If a poster is mounted in violation of these requirements, the conference staff will, with regret, be obliged to remove it.
- **Language:** All posters must be prepared in **English**.
- **Layout:** Posters should include clear headings (Introduction, Methods, Results, Conclusion).
- **Font size:** Use 24–32 pt. for text. For the **title**, larger fonts (up to 80–90 pt.) are recommended for visibility.

2. Design Recommendations

- The Mounted Poster Template and official conference logos are available on the website. Presenters are kindly recommended to use these resources when designing their file.
- Ensure high contrast between background and text for readability.
- Avoid excessive text; use figures, tables, and visuals where possible.

3. Printing & Mounting

- Posters will be displayed on dedicated boards.
- **Printing is the responsibility of the presenters. The University will not be responsible for printing any poster files.**
- Mounting materials (pins/tape) will be provided by the organizers.

4. Presentation & Attendance

- Responsibility for mounting the poster lies with the presenting author. Poster installation will begin on **Day 1, 25 October 2025**.
- If presenters wish, they may indicate the specific time they will be present near their posters (e.g., during coffee breaks or lunch time) by attaching a small sticker or note on their poster. This will help interested participants know when to approach them.
- If presenters would like to take their posters with them, they are kindly requested to remove them before the final plenary session on 27 October 2025.
- Posters not collected by authors will be removed by the conference staff and disposed of.
- Posters will be evaluated during the conference, and award will be presented to the best poster at the Closing Ceremony.

5. Submission of Poster File

- The Board Number of each poster has been provided in the detailed conference program. Please visit the conference website, download the program, and note your Board Number.

6. Contact Information
